Together, We Can Change the Future!

Faith First GA, Inc. was formed for the express purpose of helping to transform the availability of Christian education for parents in Georgia. Faith First GA, Inc. is committed to supporting schools that maintain a Christ-centered focus in their efforts to educate the next generation of Georgians.

100% Tax Credit for Educational Choice

Help children attain a quality education in one of Georgia's private Christian schools. By redirecting a portion of your state income tax liability to Faith First GA, Inc., you can help eligible Georgia students receive a scholarship at one of our partner schools. The donation is a 100% tax credit on your state income tax, and a federal charitable deduction, if you itemize on your federal income tax return.

How Can You Help Georgia's Children Achieve Educational Excellence?

If you or your company pay Georgia state income tax and would like to have control over how part of this money is used, Faith First GA, Inc. can help you re-direct your tax dollars to educational choice for parents of students wanting to attend private Christian schools in Georgia. Georgia state legislation was passed which allows taxpayers to redirect a portion of their tax dollars to Student Scholarship Organizations (SSO's). Faith First GA, Inc. was formed in 2008 as a result of this legislation. We are a 501(c)(3) non-profit, charitable corporation. Faith First GA, Inc. only partners with private Christian schools, as our mission and our hearts lie in educating the next generation of Georgians in a Christ-centered environment.

As an SSO, donors are allowed to contribute part of their Georgia state tax liability to provide scholarships to qualified students attending our partner schools. (For a list of our partner schools go to our website, www.faithfirstga.org and click the Partner Schools tab). Each donor can designate a school of their choice, but not a particular student. As a result of contributing to Faith First GA, Inc., the taxpayer is allowed by law, to take a tax credit (dollar for dollar) deduction off their Georgia state tax liability. In addition, a standard federal deduction is allowed on the federal income tax return. A maximum Cap is allocated annually for the entire program.

Faith First GA, Inc. facilitates tax credit contributions from Georgia state taxpayers and distributes 90% or more of the funds to qualified students attending our partner schools. 10% or less is allocated to our operating costs.

Credit Limits:

1. **Single individual or head of household** - \$1,000.00 or actual amount donated
2. **Married couple filing joint return** - \$2,500.00 or actual amount donated
3. **"C" corporations** - 75 percent of corporation's income tax liability or actual amount donated, whichever is less
4. **Members of LLCs, S Corps, and Partnerships** can contribute up to \$10,000 or amount expended whichever is less

The Faith First GA, Inc. Fund

By utilizing the state of Georgia tax credit, your corporation can leverage funds that would normally go to the state as tax revenue into the Faith First GA, Inc. fund that help Pre-K-12 students and the community at large.

Corporate Donor Information

We are currently looking for C corporations, members of LLCs, S corporations, and Partnerships with Georgia income tax liability to partner with us in providing scholarships to qualified students of our partner schools. As a C corporation, LLC, S Corp. or Partnership, you have the potential to make the greatest impact on eligible students wanting to attend private Christian schools, while supporting your community.

"C" corporations are allowed to re-direct 75% of your Georgia state tax liability to Faith First GA, Inc. for a dollar for dollar tax credit, and take a standard Federal deduction. Members of LLCs, S Corps, and Partnerships are allowed to redirect up to \$10,000 of their tax liability or actual amount expended, whichever is less. The process is simple, you write the check to Faith First GA, Inc. instead of the Georgia Department of Revenue. You can file quarterly, or at the end of your fiscal year, however you are filing now. Any excess credits can be rolled over for a 5 year period. The net tax effect is exactly the same, it is no different than making an estimated tax payment. The Cap has been met every year, so time is of the essence.
